## ABOUT ME

In 2015 I started my journey in the tech industry by entering the Faculty of Telecommunications at the National Aviation University in Kyiv, Ukraine. I especially enjoyed Further Mathematics, Informatics and Electronics Fundamentals. In 2017, before finishing 4th semester of my bachelor, I moved to Poland following my family. There I studied German philology in order to be able to move to Germany and continue my education there.

During my studies I had two Erasmus exchanges in Vienna, Austria and Leipzig, Germany. Those gave me not only a lot of international experience, but also skills in organization, problem solving, team- and project work. In Leipzig I met my husband, current child and adolescent psychiatry resident from Slovenia. We decided to start a family and have a child, so I moved to Slovenia.

During maternity leave and COVID-19 pandemic I continued my education in Programming and Web Development by taking online courses. As I am impatiently waiting to get my first job in the field, I continue to enthusiastically gather as much knowledge as I can.
